## FISHING LICENSES

No resident of the state over 16 years of age and no nonresident over the age of 12 years can lawfully fish through the ice in any inland waters of the state, or transport any fish taken therefrom, without a fishing license.

The 3-day license is for 3 consecutive days only. This license cannot be exchanged for any nonresident license, but may be exchanged by a resident for season fishing license only (not a hunting or combination), on payment of clerk's fee.

Resident must procure license in municipality of residence. Exception, 3-day license.

## GENERAL PROVISIONS

Read carefully the county and group headings for exceptions to General Provisions.

**Sec. 2651. Ice fishing regulated.** All inland waters of the state are closed to ice fishing except those which have been opened to fishing through the ice by rule and regulation of the commissioner. A person legally licensed may fish through the ice in the daytime with not more than 5 lines, set or otherwise, which shall be under the immediate supervision of such person, in any waters which have been opened to ice fishing by the commissioner.

It shall be lawful to fish in the nighttime by using not more than 5 lines set or otherwise for cusk in the waters which have been opened to ice fishing by the commissioner. The commissioner may open other waters for fishing for cusk in the nighttime. Lines set for cusk in the nighttime must be visited at least once in every hour by the person setting the same.

Except as set forth in this section, it shall be unlawful to ice fish from 1/2 hour after sunset to 1/2 hour before sunrise of the following morning.

Unless otherwise specified, the use or possession of live fish as bait, the legal lengths, and daily limits which have been established for open water fishing in each county shall apply to all waters open to ice fishing in those counties.

Heads and tails, or either, may not be detached from salmon, trout, togue or black bass, unless being prepared for immediate cooking. Smoking of fish shall not constitute cooking.

No person shall take, kill, catch or have in possession more than 4 quarts of smelts in any one day.

The term, **GENERAL LAW**, as applied to ice fishing, means that waters opened under the **GENERAL LAW** are open to the taking of pickerel, white perch, hornpout, yellow perch, eels, cusk, chubs, and smelts from the time ice forms in the fall until March 31, and for all game fish in February and March. Fishing is restricted to the hours between 1/2 hour before sunrise and 1/2 hour after sunset except that cusk may be taken in the nighttime.

Unless otherwise prohibited by rule and regulation, it shall be lawful to take black bass through the ice during the same period it is lawful to take salmon and trout.

**Sec. 2752. Certain implements and devices.** It shall be unlawful to angle or fish other than by the use of the single-baited hook and line, artificial flies, artificial lures, and spinners.
