

**REPEATING SHOTGUNS**

What is your preference in a repeating shotgun—hand-operated or autoloading?

If hand-operated, you know the Remington-UMC Pump Gun. Everybody knows it.

If autoloading, then get your dealer to show you the Remington-UMC Autoloading Shotgun—an arm that is performing in a way to show sportsmen that here at last is an autoloading shotgun that works.

Remington-UMC Repeating and Autoloading Shotguns are sold by dealers everywhere. Find the one who shows the Red Ball Mark of Remington-UMC—the sign of Sportsmen's Headquarters. He's the man.

To keep your gun cleaned and lubricated right, use Rem Oil, the new powder solvent, rust preventative, and gun lubricant.

## SEVENTY-SEVENTH ANNUAL MEETING

Delegates Royally Entertained by  
the Blake Memorial Church  
of Farmington Falls

The Seventy-Seventh Annual Meeting of the Franklin County Association of Congregational churches held with Blake Memorial church, Farmington Falls on Tuesday, June 17, 1916, was an interesting and successful session. The large attendance indicated an increased enthusiasm for the work of the association.

The reports from the churches as summarized by Mr. W. S. Bass, gave evidence of a year of advancement and promised yet greater gains for the present year's activities.

The opening address by Rev. A. W. Bailey of Boston on the subject "The Call for the Man who Knows" was an earnest and altogether admirable plea for greater efficiency in the high service unto which the church is called. At the close of the address Mr. Bailey conducted a question box on "The Problems of the Sunday School" that not only demonstrated his mastery of this most important of church activities, but proved of great helpfulness to all who were in attendance.

The work of the Congregational churches in Maine and in the wide field was ably presented by Principal Mallet, the president of the Maine Convention; by Supt. Harbutt, and by Mr. Bass, chairman of the State Financial Committee. Supt. Harbutt explained the Tercentenary Program of the National Council and urged the churches of Franklin Association to do their part in this great

## MAINE TO MEXICO OR BUST

Maine Boys Bound for the Border  
Barker Express Correspondent

In a personal letter from Mrs. C. E. Barker of Gardiner she says: "I saw an article in your home paper about some of the boys leaving for the front and thinking that it might be of some interest to some of the home people I am sending you a letter from Portland Evening Express in regard to Malcolm.

We read with much interest each day his letters to that paper written en route. He also had two letters in the Kennebec Journal. This is his first attempt as a reporter but I guess he will get along all right after a little experience.

forward movement. Rev. M. S. Hutchins gave an address in which he suggested that the present-day watchword "Preparedness" was one that should appeal to the churches and that they have an increased readiness to meet the mighty tasks and awful responsibilities to be forced on them by the new era that is dawning.

In the absence of Mrs. C. C. Harmon, who was to have given the address and conduct the conference of the Woman's Hour, her place was capably taken by Miss Clay, also of Portland, who shewed the helpful ways in which the Woman's Auxiliaries might cooperate in the larger work of the denomination.

The concluding period of the afternoon was the association sermon by Rev. Donald McDonald—a direct, forceful and meaty presentation of religion and its place in life.

The evening address was by Rev. Arthur H. Ryan of Constantinople, a missionary of the American Board, who is temporarily driven from Turkey because of his activities of Christian helpfulness toward the distressed and persecuted. Mr. Ryan is an earnest and splendidly informed young man, who has been face to face with the big things of present-day events, and his address was calculated to increase his hearer's knowledge of the crisis in the near east, to awaken keen sympathy with both persecuted and persecutor and to enkindle a new zeal for the extension of the message of the cross.

In addition to the speakers mentioned, great credit is due to Rev. W. H. Palmer, who as the arranger of the program and as the efficient moderator was responsible for the success of the meeting, to Rev. H. G. Barsler, pastor of the entertaining church, and to the members of Blake Memorial church for their generous and capable hospitality.

He was appointed corporal of his Co. so that releases him from any work and as a musician he gets very good pay. He is a member of what was known as the Second Maine Regimental Band, which by taking the new oath changes it to Second Maine United States band, but they cannot send them into Mexico without their taking another oath.

This band is everyone made up of U. of M. boys and has the distinction of being the only College Band in Uncle Sam's service.

Estelle is to come home from Portland to spend the Fourth with us, and though Gardiner is to celebrate, we do not feel very much in the mood for it.

The fallure of Artemus Harmon of Portland, a member of the Second Maine Regimental Band to pass the physical examinations for the Government service on the Mexican border and who had been engaged as a special correspondent for the Express-Advertiser with the Second Maine Regiment Troops, U. S. A., necessitated the securing of another representative for this paper to go with the troops when the troop trains reached Portland last evening.

In his place the Express-Advertiser has secured Malcolm E. Barker of Gardiner who like Harmon is a corporal in the Second Maine Regimental Band and Barker left with the troops last evening on the special train and will send letters back from the front telling of the happenings of the Maine boys en route and at their camp at Laredo, Texas.

Mr. Barker who will keep Maine people in close touch with our boys, is a student of the University of Maine and a graduate of Phillips High school. He was a sophomore this past year at the Orono College and a member of the Alpha Tau Omega Fraternity.

The letter follows:

Buffalo, N. Y., Friday Night,

1st Section Troop Train.

2nd Maine Regiment.

All during the morning every small town we passed they gave us a hearty greeting, and it showed us that not only Maine but the other States as well appreciate the Maine troops. The first stop we made was at Rotterdam Junction and there we took our exercise.

It surely must have cost the New York Central R. R. a lot for coal today, for at Union I counted not less than 25 locomotives all under full steam with their whistle cords tied down. It surely was some noise and we remembered it for a long time, by the ringing in our ears.

At the next station, Syracuse, we were allowed an hour to look over the town. Everything we wanted was furnished without cost, it was surely a nice town. We got the same kind of a send-off there.

All through the day the fellows

## HAND TRAP IS A GREAT BOON

Enables Novice to Become Proficient Before Joining Gun Club.

By Peter P. Carney.

A few days ago George Gould and W. K. Vanderbilt placed hand traps for trap shooting aboard their private yachts, so that they and their guests might enjoy this sport while at sea. This is one of the many ways in which hand traps can be used. It is an apparatus liked by every sportsman.

Whether you are an enthusiastic hunter, a veteran trapshooter, a mere novice in the shooting game or a gun club secretary, you should be the possessor of a Hand Trap. The trap appeals to all classes of shooters.

During the months when the law prohibits hunting, the Hand Trap proves an excellent substitute for game. The swift, sudden and unexpected angles which may be obtained with it differ very little from the flight of a quail, pheasant or duck. With the trap in the hand of friends the "birds" may be "finished" at unexpected times and places.

The veteran trapshooter will find that the practice he obtains with a Hand Trap is a great help to him in making better scores at his regular gun club shoots. He will take his trap with him on week-end trips, and finds that he can use it at picnics, from a motor-boat, on the deck of a yacht, and in many other places where regular traps cannot be installed.

The beginner who does not wish to display his inexperience at the trap shooting game before the members of the local gun club, utilizes the Hand Trap privately in order to obtain some degree of proficiency before joining the club. The scores which he makes

at his initial appearance before the traps are a strong proof of the benefit he has derived from his Hand Trap practice.

Possibly there is no trapshooting club in the town, and trapshooting is confined to a few enthusiastic friends using the Hand Trap and a few clay targets. A great deal of enjoyment is derived by them, as the same flight and angles may be obtained with the Hand Trap as are thrown by the expert and automatic traps at the gun club.

The secretary of an organized gun club will find the Hand Trap an excellent thing to fall back upon in arranging interesting special shoots. Many enjoyable novelty events may be staged with its assistance. With it may be thrown "overhead birds," "incomers," "skimmers," wide angle or regulation targets, and a combination of these angles and flights makes an event full of surprises.

One of the best things about the Hand Trap is the fact that it is a thoroughly practical apparatus and not a toy. Every sportsman should have one. No outing equipment is complete without it.

### Music Aids Dentists.

Here's a tip for other tooth doctors, that should fill a long-felt want and a tooth at the same time. Get a piano and have an assistant to tickle the ivories. A New York dentist declares that music takes the patient's mind from his activities and consequently lessens doubt and pain. "I have been filling teeth to piano accompaniment for some time," declared this ivory expert, "and I am sure that it makes a visit to a dentist's less painful—certainly less nerve racking—than before. Much of the work a dentist has to do is absolutely painless, although many patients are so nervous that they actually believe they are suffering. In fact, nine-tenths of them cry before they're hurt. But by giving them music they like while in the chair their minds are diverted, with the result that their experiences are not unpleasant. The idea has a scientific basis, and I have found it highly successful."

## EAGLE WINS OVER PORCUPINE

Visitors at West Outlet Seeing Strange Sights.

West Outlet, Me., June 28.—Mr. and Mrs. F. I. Cobb are spending their vacation at the West Outlet Camps. Mr. Cobb is editor in chief of the New York World.

While fishing the other day in company with S. J. Eccles and E. B. Whitler near the shore of Big Duck cove, a very large bald headed eagle was seen suddenly to fly up from shore and in the direction of Duck mountain. After going ashore it was found that there had been something of a battle enacted. Several eagle's feathers were thrown on the beach mixed up with the quills of a porcupine. Upon further investigation the remains of a good sized porcupine were found, only a short time dead.

Mr. John B. Fecto, a famous and popular guide of Moosehead Lake has returned to West Outlet Camps and reports having killed a white porcupine near Duck mountain.

Mr. and Mrs. Albert Ayer of Kineo station while canoeing recently in the vicinity of San Bar island noticed something swimming some distance away. They paddled up to it and found it to be a big black bear. After stunning it with the handle of a landing net they towed it ashore and then secured an axe and killed it. Some time before the bear must have been caught in a trap as one of its front paws was gone, but the wound was entirely healed over.

### Value of Reading.

There is perhaps nothing that has a greater tendency to decide favorably or unfavorably respecting a man's intellect than the question whether or not he be impressed with an early love of reading. Books gratify and excite our curiosity in innumerable ways. They force us to reflect. In a well-written book we are presented with the maturest reflections of the happiest flights of a mind of uncommon excellence. It is impossible that we can be much accustomed to such companions without attaining some resemblance to them.—William Godwin.

## ROAD BOOK JUST ISSUED

Series of Indexes Most Complete Which Association is Sending Out.

The Maine Automobile Road Book for 1916 has just been issued for its fifth year by the Maine Automobile Association and is now being sent out to the 3,000 members of that organization as well as to the general public. This year's book contains 400 pages, making it a very much larger volume than the 1915 edition. It has about 220 routes, covering all of Maine, the greater part of New Hampshire, most of Massachusetts as well as New Brunswick and Quebec. A new feature of this year is the through routes between New York City, southwestern New England and Maine. These are given in both directions. This year's volume has about one-third more routes than any previous edition and in addition contains the famous Pine Tree Tour now followed annually by hundreds of tourists. A large number of one-way routes of 1915 are this year given in both directions.

A new and decidedly valuable feature this year is a series of 14 city and town street-maps showing the principal entrances and exits. Another new feature is a greatly enlarged general road map showing all of the automobile roads in Maine.

An important contribution is an article on what the Maine State Highway Commission has accomplished and what it intends to do this year, by Paul D. Sargent, chief engineer of the Maine State Highway Commission. Other special features are a digest of the Maine Automobile laws, the Maine fish and game laws for 1916, Maine laws regulating the setting of fires on forest and timberland, the department entitled, "Facts about Maine," greatly enlarged and improved, the thorough routes of travel put in a form which for simplicity can hardly be equaled, ferry time tables, regulations for motorists entering Canada, and many others.

The series of indexes are the most complete and most simple to be found in any road book, every

minute detail of the volume being covered.

The book is fully illustrated with new pictures and is attractively bound in a green waterproof leatherette with specially designed covers. It contains three large touring maps enclosed in a pocket in the back of the book, and every point of interest is fully described in the descriptive matter with which the book abounds.

The book is published by the Touring Bureau of the Maine Automobile Association, 12 Monument Square, Portland, Me.

## HIRAM RICKER FOR TRUSTEE

Hiram W. Ricker of Poland Spring has been elected to the board of trustees of Hebron academy. Though this action was taken at the annual meeting of the board on June 20, it could not be made public until Mr. Ricker's acceptance was received by the president of the board, F. O. Stanley of Newton, Mass. Much to the gratification of the academy officials Mr. Ricker has accepted the position and is now a member of the board.

The present appointment is not, however, the beginning of Mr. Ricker's relations with Hebron academy. For many years he has been a staunch friend of the school and an intimate acquaintance of its principal, Dr. W. E. Sargent. Every winter when the Hebron seniors go to Poland Spring for their class ride and dinner, Mr. Ricker himself superintends the entertainment of these school guests.

# GREATER INTEREST MAKES UP FOR SMALL ATTENDANCE

## Excellent Shooting at Traps and on Range Characterized Sportsman's Meeting

Mountain View, July 1.—All roads have led to Mountain View since Wednesday, June 28, and the roads were so much improved good time was made and everybody came with a smiling face. Even the weather changed to accommodate everyone for there was never more perfect days in June than Friday and Saturday and all entered into the contests with enthusiasm. The secretary and treasurer of the association, R. C. Whitehouse of Auburn was the first to arrive and he spent Wednesday afternoon and evening in unpacking and arranging in the big parlor one of the best displays of elegant prizes ever offered by the association at any of its gatherings for nearly a quarter of a century.

When the ladies, the members, guides and wardens looked at the guns, fishing tackle, handsome cups, sporting boats, etc., everyone was ready to enter the contests and there has never been as many entries or such good shooting.

The second party on the spot was from the State capital, Mr. and Mrs. D. L. Nash, Mr. and Mrs. N. S. Weston, who reached here about 3 o'clock and Mr. Nash at once said "I want to go-a-fishing, where is a guide?" Dick O'Brien was ready and at supper time they came in. Mr. Nash bringing a handsome 5½-pound salmon, "just to prove there are big fish whose home is near the Mountain View."

Thursday morning was pleasant and the automobile parties continued to come and have been coming and going ever since. In the evening there was dancing and card playing, old friends greeting one another and the gentlemen talking of the shooting events they surely were prepared for. Never was there a more perfect day than dawned on Friday morning, everybody was smiling and happy. From Haines Landing, Rangeley and Loon Lake parties came by auto and Hon. J. Putnam Stevens courteously took the ladies back and forth from the shooting grounds not far above the garage in his car. This made a good place for the rifle shooting and the distance was measured and the targets put up, and so interesting were the matches everything else was for the time forgotten. The first match was:

### 100 YARD SLOW FIRE

Five shots slow fire. Standing position at 100 yards, 4 inch bull's-eye. Any rifle without set triggers, any sights not including glass, 25 cents to enter.

Team making greatest number of hits will hold honor of moving target championship for one year. Won last year by the Guides. To the member of either team making the highest score will be given a Marlin .25-36 caliber Carbine presented by the Marlin Arms Corporation, New Haven, Conn. To the guide making the highest score, and to the warden making the highest score, outside the winner of the rifle, will be given a pair of canoe paddles, one pair presented by the Old Town Canoe Co., Old Town, Me., and the other by B. N. Morris, Inc., canoe builders, Veazie, Me.

It was an exciting match and everyone felt proud of the fine looking Maine guides and wardens who are doing such good work for the protection of our fish and game.

## HUNNEWELL-WEYMOUTH

Gerald Guy Hunnewell and Miss  
Florence Lillian Weymouth, both of  
Kingfield were married Wednesday,  
June 21 at Bingham by Rev. T. B.  
Hatt. The bridal couple left town  
Wednesday afternoon for a journey  
of two weeks, after which they will  
go to North Anson to reside for  
the summer where Mr. Hunnewell  
will work in his old position with  
the New Castle Lumber Company.

Mr. Hunnewell has been employed  
in the mills. He is the son of the  
late Edwin F. Hunnewell of North  
Anson.

The bride is the oldest daughter  
of Mrs. Elizabeth Weymouth of this  
town, a graduate of the Kingfield  
High school class 1914, of Gray's  
Business College, Portland '15, and  
has taught school in Rangeley and  
Freeman for several years with good  
success.

Many friends here wish them much  
happiness.

## TONICS FOR AUTOMOBILISTS

Attention to the car now will save  
many a vexatious delay far from home.  
Some of the things often overlooked  
in the usual hasty summer overhaul-  
ing, and in which trouble or danger  
may lurk, are:

A defective battery. If the car has  
been in storage, take the battery out  
and fill up the liquid with distilled wa-  
ter. If the battery does not test up  
to requirements, seek the battery man.

Look carefully over the steering con-  
nections. Especially if the car has  
been in use several years there may  
be a weak part that needs replacing.

Take a good squint at the front  
wheels; see that they line up prop-  
erly. When they are not true it runs  
up tire expense.

Examine all the bearings carefully.  
It is likely that one or more of them  
need attention.

Take off the demountable rims and  
see that they are in good shape. Some-  
times the tires rust into the clincher,  
and if unattended to will cause trou-  
ble.

See that you have a supply of good  
inner tubes. Take steps now to  
avoid for the season the dilemma of  
the man who, out on the road, finds  
that his surplus inner tubes are all  
punctured ones.

## Accessories Help Sales.

How is the car equipped? This  
question and its answer often is the  
turning-point in selling a car.

Some time ago reference was made  
to the quality of these accessories as  
evolved by careful application of sci-  
entific manufacture.

Without seeking to confine oneself  
to any one company, another of its  
products is a dominating factor in  
many sales. It is the tire pump, driven  
by the motor.

The buyer profits two ways from  
the purchase of a tire pump. He gets  
a standardized article and he keeps  
his tire at the correct pressure with-  
out work, adding to tire life. It re-  
quires 4,399 cubic inches of air to fill  
an average tire, and usually the arms  
give out at 75 per cent of that figure.  
Then follow 90 per cent of tire trou-  
bles. One needn't even get the hands  
dirty with a motor-driven pump.

These pumps don't get hot, shoot  
oil into the tire and have no leather  
fixings to get out of order. They are  
an added necessity-luxury.—Chicago  
Herald.

SLEEPLESSNESS. You can't sleep  
the stillest night, if your digestion  
is bad. Take Hood's Sarsaparilla—  
it strengthens the stomach and es-  
tablishes that condition in which  
sleep regularly comes and is sweet  
and refreshing.

## IN AND ABOUT PHILLIPS

We note by the Farmington Chron-  
icle that Hon. Joseph C. Holman of  
Farmington is grandfather to a fine  
boy born to Judge and Mrs. Currier  
C. Holman June 24th, and the many  
friends of Lawyer Holman and wife  
extend congratulations, as well as  
to the fond parents.

Rev. M. S. Hutchins, Hon. N. P.  
Noble, Mrs. H. W. True and Mrs. J.  
W. Brackett attended the Franklin  
County Conference of Congregational  
churches at Farmington Falls last  
Tuesday, when a very interesting and  
profitable session was held. Rev.  
M. S. Hutchins was on the program  
for an address and gave a splendid  
talk on "Preparedness." Mrs. N. J.  
Hackett took them by automobile in  
the morning, but on account of the  
heavy showers that afternoon Lamont  
Bean was the chauffeur in the even-  
ing.

Miss Lillian Toothaker went to  
Haines Landing Saturday, where she  
will be employed as waitress at the  
Mooselookmeguntic House.

Miss Edna True, bookkeeper for  
the International Mfg. Co., left town  
Saturday for a month's vacation  
which she will spend at the home  
of her aunt, Mrs. E. A. Morgan. Her  
mother, Mrs. Addie True will join  
her for the last two weeks in July.

Mr. and Mrs. F. G. Mackenzie of  
Rangeley were the week-end guests  
of the latter's parents, Mr. and Mrs.  
Chester Hight, returning home Mon-  
day by auto.

Miss Nellie Fairbanks has gone to  
Mountain View where she will be  
employed as waitress.

Mr. and Mrs. Abel Holt, Floyd  
Holt and Mr. and Mrs. Eben Hutchin-  
son of Dixfield were at E. V. Holt's  
Sunday, coming by auto.

Friends in town are again pleased  
to see the Bonney cottage occupied,  
as Mrs. P. F. Bonney, Mr. and Mrs.  
J. J. Brownlow, and Mr. Charles  
Bonney arrived June 29th for the  
summer. George Bonney and fam-  
ily arrived the 30th and are at their  
cottage at Long Pond for the month  
of July.

Miss Minnie Bickford of Lewiston  
returned home last Friday after a  
week's visit with Mrs. F. S. Haley.

Miss Helen Pope of Clinton, Mass.  
returned to her home Wednesday  
morning after a two weeks' visit  
with her friend, Mrs. E. C. Higgins.

Miss Blanche Savage of Flagstaff  
has been a recent guest of her aunt,  
Mrs. A. D. Graffam.

Mr. and Mrs. F. S. Haley, Mr. and  
Mrs. G. D. Bangs, Mr. and  
Mrs. Bert Rideout, Mr. and  
Mrs. Birchard Whitman started for  
Stratton the Fourth to attend the  
races, but they did not materialize.

Mr. F. J. Toothaker went to Port-  
land Saturday, where he passed the  
Fourth with his son, Howard Tooth-  
aker and wife.

Otis Witham of Madrid brought a  
full blown apple blossom to this of-  
fice which was picked from one of  
his trees July 5th. This was the  
only blossom on the tree.

Next Thursday evening at the  
Methodist church Rev. D. B. Holt, D.  
D., will give an address on the  
work of the General Conference  
which has just been held at Saratoga  
Springs, N. Y. This Conference  
convenes every four years and con-  
tinues for one month, when all the  
work of the Methodist Episcopal  
church the world over is re-  
viewed and business matters of all  
kinds are looked after and delegates  
of the church from all parts of the  
world are present. Dr. Holt was  
one of the delegates from the Maine  
Conference.

For fear that some did not read  
the card of thanks in last week's  
Maine Woods, Mr. and Mrs. L. G.  
Voter wish again to express their  
thanks to the neighbors and firemen  
who so kindly gave their assistance  
at the time of the fire at their home.

Miss Viola O'Brien, who has been  
the guest of her father, John O'Brien  
for a few weeks, has returned to  
Lewiston.

Deborah, a pet dog of Hon. H. B.  
Austin, was run over by an automo-  
bile last week and died almost in-  
stantly. There were others besides  
the Austin household who felt grief,  
as this little hound was a favorite  
around town.

Lew M. Noble was the guest of  
his friend, Philip L. Card of Port-  
land for a few days, returning home  
Thursday of last week.

The friends of Lew M. Noble will  
be interested and pleased to learn

that he won first prize in the ex-  
temporaneous Brown composition  
contest at Bowdoin.

At the anniversary dinner held at  
the Exchange Hotel recently by  
the Colonial Daughters Chapter, D.  
A. R. of Farmington, Past Regent  
Mrs. Abbie Greenwood was present  
with a Colonial picture by the  
Regent Mrs. Harriette Fenderson in  
behalf of the chapter, to which Mrs.  
Greenwood responded with words of  
appreciation.

Mrs. F. H. Wilbur, who with her  
husband is with the Wilburs at their  
cottage at Rangeley, passed a few  
days with her aunt, Mrs. N. P.  
Noble last week. On Thursday aft-  
ernoon Mrs. Noble invited several of  
Mrs. Wilbur's old friends to meet  
her and to spend a social afternoon  
on the spacious piazza with their  
fancy work. Dainty refreshments  
were served, and the afternoon was  
a most delightful one.

Pineapple and coffee sherbet was  
served at the Parish House last Sat-  
urday afternoon by the Social Ser-  
vice Club. Mrs. W. V. Larabee  
and Mrs. C. B. Sweetser were in  
charge.

Ruth Austin passed the Fourth  
with her aunt, Miss Mabel Austin in  
Farmington.

The Shaw Business College, whose  
advertisement appears in another col-  
umn, has been doing business in  
this State under the same manage-  
ment for a period of over 30 years.  
It is progressive and up-to-date and  
worthy of the patronage of those  
who wish to secure a sound business  
education. Write for free catalog.

Mrs. Edgar R. Toothaker and two  
sons, James and Holman visited in  
Hebron last week. Holman will re-  
main a few weeks with his uncle,  
H. L. Melcher.

Miss Elsie Badger, who has been  
caring for Mrs. Octavia Badger for  
several months, is at home for a  
rest and Miss Edith Keith, a trained  
nurse takes her place. Mrs. Badger  
remains about the same with the ex-  
ception of a gradual decline in  
strength. She is unable to speak  
and does not seem to sense what is  
going on around her only a few min-  
utes at a time. Last Sunday when  
her daughter from Dixfield, Mrs.  
Abel Holt called she seemed to know  
her for a moment.

Mrs. Howard Leavitt and little  
daughter are visiting Miss Caswell  
in Bridgton.

Mrs. Julia Hinkley returned from  
Farmington Wednesday.

The Social Service Club will meet  
in the Parish Tuesday, July 11, at  
2 p. m.

A dance will be held at the Grange  
hall Saturday night. Good music  
will be furnished.

Mrs. O. White of Stratton and  
mother, Mrs. Benjamin Durrell have  
been the guests this week of the  
latter's sons, E. C. and Harlan White  
and families. Mrs. Durrell is a re-  
markable woman and at the age of  
83 is as active as a woman of 50. She  
is the great grandmother of 23 child-  
ren, the oldest being Burton White-  
son of Mr. and Mrs. E. C. White  
who is 11 years old. Last summer  
she picked \$16 worth of berries be-  
sides what she put up for her own  
use. She has the making of the  
butter from five cows and does her  
general housework, and recently  
cooked and served a dinner for 20  
people.

The Social Service will sell pine-  
apple and strawberry sherbet at the  
Parish House Saturday, July 8, at 2  
p. m.

Miss Mona Young is at home with  
her mother, Mrs. Emma Young for  
the summer vacation.

Mr. and Mrs. John A. Wheeler and  
son of North Cambridge, Mass., are  
visiting Mr. Wheeler's mother, Mrs.  
Louisa Wheeler and sister, Miss  
Cora Wheeler.

Mrs. Glidden Parker is passing a  
week or so at the Parker cottage  
at Long Pond. Her mother, Mrs. O.  
H. Hersey is with her. Mr. and  
Mrs. C. E. Parker and Master Jun-  
ior Parker also spent the week-end  
there.

Painful, annoying bladder weakness  
usually indicates kidney trouble. So  
do backache, rheumatism, sore, swollen  
or stiff muscles or joints. Such  
symptoms have been relieved by Foley  
Kidney Pills. Henry Rudolph,  
Carmi, Ill., writes: "Since taking  
Foley Kidney Pills I sleep all night  
without getting up." Floyd E. Parker.

## SOLDIERS USING AUTO

AMERICAN TROOPS IN MEXICO  
WELCOME ITS HELP.

Artillerymen Mount Machine Guns on  
the Vehicles and Report Satisfac-  
tory Results.

The use of motor trucks and ar-  
mored automobiles has already been  
demonstrated in actual warfare, but  
it remained for the American troop-  
ers chasing Pancho Villa in Mexico,  
or guarding the border, to demon-  
strate the feasibility of putting ordi-  
nary touring cars to military use.

A few days ago a touring car was  
driven north of Columbus, N. M., by  
United States artillerymen. A ma-  
chine gun was mounted in the ton-  
neau and targets were fired at, with  
the machine traveling and at a stand-  
still.

The test was reported to be very  
successful. It was found that a tour-  
ing car was fully as logical and as fea-  
sible as a truck for the purpose. The  
demonstration proved that the vibra-  
tion of a gun being fired does not  
swerve the aim a particle. In fact,  
the car barely is shaken. The objec-  
tion to cramped quarters was also con-  
clusively dismissed when it was shown  
that four men could ride comfortably  
in the car with a gun.

## GIVE YOUR CAR A CHANCE

During the First Few Months It Is in  
Use It Needs a Great Deal  
of Attention.

"Cars, like children, require a certain  
amount of care," says an automobile  
expert. Then he continues: "An au-  
tomobile is a complicated piece of  
mechanism which comes in for more  
hard usage and abuse through lack  
of knowledge on the part of its opera-  
tors than any other piece of machinery  
I know of."

A new automobile, due to the wear-  
ing in of the newly assembled parts,  
requires a little more careful atten-  
tion during the first few months of its  
career than it will thereafter. For  
this reason all new cars should be in-  
spected within their first 500 or 600  
miles of usage. A second inspection  
should be made after 1,000 or 1,500  
miles of service or within not more  
than two months' time, irrespective of  
mileage. Thereafter at periods of  
every 1,500 miles of running.

"Every owner of an automobile is  
interested in keeping down the ex-  
penses of his car, especially those  
items of replacement of parts. A good  
modern automobile is designed with  
built-in adjustments and facilities for  
lubrication which permit its being  
maintained for many years with little  
or no care outside of periodical in-  
spection.

"The manufacturer's guaranty is  
based on the owner taking a certain  
amount of care of his car, and an in-  
spection every month or so is little  
to ask in view of the fact that a  
locomotive is gone over by a skilled  
force of mechanics as soon as it com-  
pletes a 100 or 250-mile run."

## Thoughts Above Finance.

Robert Louis Stevenson had no  
money sense whatever. He and Mrs.  
Stevenson once went to Paris for a  
pleasure trip. They had a check for  
\$500, and some loose money, and they  
meant to have a good time, and stay  
as long as their money held out. After  
a few days they found their funds run-  
ning short, they could not imagine  
what they had done with it all, but  
as there seemed to be very little left,  
they decided they had better go home  
while it lasted. When they got home  
they found the check for \$500 among  
the papers on the desk. They had  
not cashed it at all, and they did not  
even know they had not.—S. S. Mc-  
Clure.

MORE MEN THAN WOMEN HAVE  
APPENDICITIS.

Surgeons state men are slightly  
more subject to appendicitis than  
women. Phillips people should know  
that a few doses of simple buckthorn  
bark, glycerine, etc., as mixed in  
Adler-ika, often relieve or prevent  
appendicitis. This mixture removes  
such surprising foul matter that ONE  
SPOONFUL relieves almost ANY  
CASE constipation, sour stomach or  
gas. The INSTANT, easy action of  
Adler-ika is surprising. E. H. Whit-  
ney, druggist.

## REED'S MILL.

July 3.  
Rev. C. J. Longley of Kingfield gave  
us a very interesting and impressive  
sermon Sunday. He was accompanied  
by his wife who was well-known in this  
place as Miss Maud Cross. Her many  
friends were glad to greet her. Mr.  
Longley will preach again July 16.  
The Children's Day exercises will be  
held next Sunday. The Sunday school  
will be at 1.30.

The Ladies' Circle will have a straw-

served.

## Trees and Ghosts.

Among the Druids the oak was held  
sacred, and many of their rites were  
performed in England's oak groves,  
safe from prying eyes. Their rever-  
ence for the mistletoe was an out-  
growth of their surroundings, since  
they observed that only rarely did it  
appear on this sacred tree. It was  
cut on New Year's day with much  
pomp and ceremony. The archdruid,  
clothed in white, ascended the tree  
and cut the mystic boughs with a  
golden knife, dropping them into the  
outstretched robe of another officiat-  
ing priest. The branches were then  
distributed to the waiting crowds, to  
whom they conferred the gift of fer-  
tility. It was supposed to possess,  
besides, great healing powers; and,  
further, to impart the power to see  
ghosts—for which purpose it was prob-  
ably not greatly in demand.

## PURPOSE OF WOOL DEMONSTRATION CAR

Interior of Wool Demonstration Car.

(Prepared by the United States Department of Agriculture.)

In order to show producers and dealers that better wool means more money, a wool demonstration car has been touring Montana, Idaho, Wyoming and Utah for the past several months. In the course of that time it has given demonstrations in more than fifty towns and at least 6,000 persons directly interested in wool growing have had an opportunity to study the exhibits. These consist chiefly of fleeces representing the various grades of wool, but, in addition, six head of live sheep are carried along as an object lesson in the value of the different breeds.

The purpose of the tour, in which the United States department of agriculture is co-operating with the agricultural colleges of the four states, is to increase interest in the movement for the improvement of American wool. The prevailing practice in this country of marketing wool on a quantity rather than a quality basis has interfered with a full realization on the part of producers of the factors which determine the real value of their clips. Many are unable to estimate accurately the percentage of shrinkage in their

fleeces and do not understand the relation between the market prices for various grades of wool and their own profits. The idea is not uncommon that wool is wool and that the heavier the clip is, the bigger the profit will be.

It is this idea that the specialists in charge of the car are anxious to dispel. The experience of Australian sheep growers has shown that it is distinctly advantageous for the producer to improve his flock, grade his clip in the shearing shed, handle it carefully and sell it not for a lump sum, but each grade by itself. Under existing conditions in this country it is not probable that the individual grower would profit immediately by adopting this system, for organized effort will be necessary to effect so radical a change in the prevailing practice. Before any such effort can be made, however, it is essential that growers should have a more complete knowledge of wool grades and of the ways in which the requirements of manufacturers can be met most profitably. It is to spread this knowledge, which at the present time is far more common among buyers than producers, that the demonstration car has been sent on its tour.

## NOTES FROM ALL AROUND

The two silver pheasants and three golden pheasants sent here recently from the state of Washington by Mr. E. G. Ames will be liberated at the Mattimo farm for the purpose of stocking the forests thereabouts with this valuable game bird. Notices will be posted in the section, requesting hunters not to kill the birds. They multiply very rapidly and are considered a very fine bird. Of course hunters have no right to kill these birds anyway, as there is a law against it. It is therefore hoped the future will see large numbers of these birds in this section.—Machias Republican.

A novel woodchuck trap is reported from Winthrop Center. Chuckle was making its home under a doorstep and quietly but firmly refused to investigate the workings of any and all kinds of traps set for his benefit. The lady of the house at last thought of and stuck a bunch of sticky fly paper into the hole after the woodchuck. He later came out, as usual, and the paper came with him. He finally became so entangled that all he could do was to crawl into the hole and lay there helpless, practically unable to move. The stone step was taken up and Mr. Chuck was at last a captive.

Fred E. Thomas, Bangor's famous rod maker, has received an order for one of his fishing rods from Tobolsk, Siberia, Russia.

One might watch the little alligator in the window of the F. E. Tainter music store in Lisbon street, Lewiston, for hours and obtain no evidence that the creature was alive. On the other hand he might waddle for a few steps and again settle into some fixed and seemingly artificial position. It makes one think of the poem "Who Stuffed That White Owl?" This alligator is supposed to be two years old. F. E. Tainter purchased him in Jacksonville, Fla., last winter. In the past few months this alligator has eaten twice and then he consumed fish. He and the mud turtle in the window pay little attention to one another though it is said that they have had little spats before now.

Another fox has been added to the already fine collection now in the possession of Curator Thomas A. James of the State Museum, one having been received from Chief Game Warden S. L. Worcester of Washington county. The little chap had been taken by the warden from one Bert Low of Jonesboro, for illegal possession during close time. He was already on arrival to interview a luncheon, having been on the road for a couple of days and being decidedly hungry. He was duly welcomed by the other members of the fox colony.

M. F. Stevens of the Fox Farm firm, Skowhegan, has been in Clinton, Mass., on business connected with the purchase of wire for use on the farm. Additional ranches on the Skowhegan farm are to be built and the buildings on the premises are shortly to be repaired.

Wesley C. Day of Auburn recently made a successful fishing trip to Turner, returning with a good string of trout. Mr. Day lost one fish estimated by him to have been two feet in length.

The "Rainbow" hornpout, which since its chance of residence from the Kennebec river to the aquarium at the State Museum, has not been enjoying the best of health apparently, is now a little livelier. It was for several days lopped-sided and acted in distress, but it now stays on an even keel and acts as though it would live. Tom James gravely explained to one anxious inquirer that the pout had got wet and had been suffering from a bad cold. All Around . . . . .

The sum of \$150 has been ordered set aside from the contingent fund of the Governor and council for the purpose of installing a fish screen at Patten's pond, Hancock county, by recommendation of the Inland Fish and Game Commission.

Deer are numerous in York county this spring, more being seen than for several years. Policeman Ernest H. Robbins while driving on the Biddeford Pool road saw four deer in the McIntyre field, a short distance from the highway. He was able to get within a short distance of the animals.

The C. P. R. has established a signal station at Squaw Mountain Inn on Moosehead, the lake fishing is surprisingly good and toque and salmon are being taken away every day. Among the recent arrivals at the inn are E. J. Wardwell and L. E. Wardwell of Camden; Dr. F. H. Russell of Orono; Mr. and Mrs. W. J. Mayo, Somerville, Mass.; Charles Lovett, Bangor; Ira Smith, Capt. and Mrs. Luke and Mrs. Billings of Worcester, Mass.

The following prosecution of violation of the fish and game laws has been reported to the Inland Fish and Game Commission by Deputy Warden Charles Knight of Lincoln: For taking short fish, John Salem of East Millinocket, who paid a fine of \$10.

Mathew C. Morrill of Gray, chief warden for Cumberland county, was a caller Tuesday on official business at the department.

## American Efficiency.

We hear so much about German efficiency that we are apt to forget American efficiency. Let it not be forgotten that the first essential of efficiency is the conception and initiation of practical and constructive ideas. In this regard the United States has led and still leads the world. Indeed, not a few of the inventions which have made warfare so "efficient" have sprung from American minds, just as inventions which have done most in stimulating agricultural and manufacturing progress have come from this side of the Atlantic. The Germans have excelled in applying important ideas and important inventions to the various departments of economic activity. The American bent is to initiate; it does not always excel in the painstaking work which must follow the launching of a great idea. Yet there are scores of examples ready to hand in this country of a surpassing efficiency not only of conception and initiation, but of systematic achievement as well.—Financial America.

## NYOIL FOR GUNS AND FISH-RODS

William F. Nye is the greatest authority on refined oils in the world. He was the first bottler; has the largest business and NYOIL is the best oil he has ever made.

## NYOIL HAS NO EQUAL.

Beware of scented mixtures called oil. Use NYOIL on everything where a light oil is needed. It prevents rust and gives perfect lubrication.

Sportsmen, use it liberally on your firearms and your rod. You will find it by far the best. Hardware and sporting goods dealers sell it in large bottles (cheaper to buy) at 25 c. and in trial sizes at 10 c. Made by

## PULLMAN MAKES INITIAL RUN

Log Cabin Life Has a Great Fascination for Many.

Mooselookmeguntic House, Haines Landing, July 1.—"Here in the heart of the Rangeleys we shall spend our summer in such a cozy homelike log cabin," was what a lady wrote to her city friends this morning from this attractive place. Log cabin life surely has a fascination for those who do not care for the fashionable summer hotel. "Close to Nature and life in the open down in Maine," brings health as well as pleasure.

Prof. J. Kellsey of New York City College, accompanied by Mrs. Kellsey, have returned for their third summer. Mr. Kellsey was greatly pleased to bring in a 5½-pound salmon and one 3¼ pounds, and his wife had sport landing a 3-pounder.

Prof. W. B. Sargent, accompanied by his wife of Hebron Academy, were here for over Sunday.

Dr. F. A. Hayden of Portland was greeted by old friends on his arrival Saturday and will spend part of the summer at Haines Landing.

Dr. and Mrs. W. J. Carter motored in from Phillips Sunday.

Mr. and Mrs. I. S. Hance of Yonkers, N. Y., who are on their wedding trip, are pleasantly located in Wellsmere Camp in the woods for several weeks.

Samuel C. Hutchinson and brother, W. Howard Hutchinson of Lynn, Mass., returned home this morning after a week in camp. They made the trip by auto and from here went to Poland Springs.

Mr. and Mrs. Gordon Grant of Brownville, N. Y., are for their season enjoying a month in camp here.

Dr. and Mrs. B. C. Graffam of Portland have come for a two weeks' stay.

Thomas O. Rogers is entertaining as guests his friends, Mr. and Mrs. B. Faith and Miss Collins of Newton, Mass.

The first Saturday morning pullman from Boston whistled in at Oquosoc at 6.44 o'clock this morning and the following party from Detroit, Mich., Mrs. M. E. Farr, Miss Carol and Master Frederick, E. R. and Everett Farr arrived and will for the summer be at home in one of the camps.

## FEAST ON THE COLORADO TROUT

Several Auburn families have been feasting this week on Colorado mountain trout, which, notwithstanding they were a week on the way, reached their destination in perfect condition. The largest wholesalers of sea-food, as well as of mountain trout and canned goods in the Rocky Mountain

country, are the M. C. Flint Mercantile company of Denver, Colorado, of which R. S. Williams is secretary and treasurer. The fact that mountain trout are so abundant in the Colorado cascades as to make them an article of transcontinental as well as of State commerce shows the great resources of the Colorado sporting country, not only for relaxation but for food-stuffs. Mr. Williams in an eastern born man, and he has not forgotten the east in his active and successful participation in business in the west. The M. C. Flint Mercantile company probably handles more foodstuffs at wholesale than any firm in either middle or remote west.—Lewiston Journal.

## GOOD CATCHES AT YORK CAMPS

York Camps, Loon Lake, Rangeley, July 2.—Many good catches have been made at Loon Lake the last two weeks with Mr. and Mrs. H. R. Maxfield and C. M. Maxfield of New Hartford, Conn., among the most successful. H. R. Maxfield has a 3-pound salmon and a 5-pound, and a 4½-pound square tail to his credit while his brother, C. M. Maxfield is close behind with a 5½-pound trout and a 2½-pound salmon.

Mrs. G. B. Lely of Boston secured a fine string of salmon weighing 6 pounds.

Mrs. Paul D. Freiss of Cleveland, Ohio, went out each day of their stay and secured a fine salmon for their table.

H. N. Fairchild of New York, a regular guest for several summers, has been having his usual good luck on Little Greeley.

Others who have recently registered are F. Warren Clark, A. N. Harris, Elizabeth B. Woods, F. K. Hatfield, Boston; Mrs. Wm. Nice, Jr., Katharine Nice, Agontz, Pa.; R. H. Ellis, Rangeley; Mr. and Mrs. R. R. McFarlin, James B. McFarlin, Mr. and Mrs. Daniel P. Hays, Mrs. L. M. and Mary C. Tanner, New York City; C. R. Adams, W. S. Schellenger, Philadelphia; Mrs. H. J. Peck, Warren, R. I.; A. M. Best, Providence; Mr. and Mrs. P. M. Bainbridge, Brooklyn, N. Y.; Mr. and Mrs. H. A. Chandler, Strong; Dr. and Mrs. C. H. Cunningham, Ruth Cunningham, Auburn; Mr. and Mrs. A. C. Pollard, Nashua, N. H.; Mr. and Mrs. Geo. C. Orr, Portland; Mr. and Mrs. E. M. Lowell, Lewiston.

## MINGO SPRINGS OPEN FOR SEASON

Guarantee that Guests Will Be Well Cared for With the Smiths In Charge.

(Special Correspondence.)

Mingo Springs, Rangeley Lake June 29.—It will be pleasing to the public and patrons of this attractive hotel and camps to learn the place is open for the season of 1916, and the first guests come tonight, and several parties are booked for the first of July.

As many letters are being received from those who plan to come to the Rangeleys, without doubt all the camps will soon be engaged by Boston, New York and Philadelphia people.

Mr. and Mrs. A. E. Beale and her sisters, Miss Gertrude and Miss Grace Smith of North Anson have charge of the place which is a guarantee that those who spend their summer at Mingo will in every way be well cared for.

Prof. Munyon has written he will come next week and complete the arrangements for improvements at Mingo.

The flag is flying from Mingo Hill Camps, which announces that Mr. and Mrs. E. E. Patridge, who spent the winter at their southern home, are again welcomed to their beautiful home on the hill.

Ernest DeMerritt,  
Vincent York,  
Arthur Gile,  
James Mathieson.

Was won by L. S. Dow of Houlton, who cast 75 feet.

## SPECIAL FISHING PRIZES

To the lady catching the largest trout during the meet will be given a steel fish rod presented by the J. H. Stetson Co., Lewiston, Me.

To the gentleman catching the largest trout during the meet will be given a Martin's "DeLuxe" enamel line valued at \$5.00 presented by E. J. Martin's Sons, Rockville, Conn. This is one of the very finest fish lines manufactured.

For the largest salmon caught during the meet will be given a Martin's "Highest Quality" enamel line valued at \$3.50, presented by E. J. Martin's Sons, Rockville, Conn.

If the gentlemen and ladies had worked as hard or spent half as much time with rod and line as they did shooting and playing bridge no doubt there would have been less fish in the lake.

D. L. Nash of Augusta won the prize before he had been here three hours by landing a 5½-pound salmon not far from the Mountain View.

Bob Chapman caught one of 5 pounds weight and won 2nd prize.

A. J. Skidmore caught the largest trout, but it only weighed 1 pound. Several parties went to Quimby Pond and had good fly fishing.

## LADIES WHIST

Whist will be played by the ladies under rules to be made at the meet, and the following prizes have been provided.

A quilt presented by the Bates Manufacturing Co., Lewiston, Me.

A pair of ladies' sport shoes presented by Wise & Cooper Co., Auburn, Me.

Friday—First prize, Mrs. I. E. Pendleton, who made a score of 1346. Second prize, Mrs. F. L. Gardiner, whose score was 1041. Mrs. R. L. Whitehouse 3rd prize, and on Saturday Mrs. F. L. Gardiner with score of 1288 won the first prize. Mrs. G. M. Barney 2nd prize with a score of 1287, and Mrs. D. L. Nash 3rd with a score of 1232.

## NOTES

Friday morning four enthusiastic sportsmen quietly left the hotel just after the clock struck 4 and when at 6 o'clock they returned, as bright as the morning, they had one "speckled beauty" and it measured just the required length to pass the war-

## To sit and sew all day

"Women's work is never done," they say, and too often this is true. To sit and sew all day is tiring work, and often results in headache, backache and sometimes kills ambition and takes away the appetite. The stomach, liver and bowels need exercise, but they don't get it when you bend all day over a needle. When this sort of work tells on you, you can find great relief by taking "L. F." Atwood's Medicine. It is safe to take and acts favorably on the digestive organs, regulates the liver and bowels, and helps a sick headache. Women or men who lead a sedentary life will find this medicine a fine remedy to keep in the home.

den who sat smoking on the piazza.

It was a great reception the friends gave Hon. J. Putman Stevens, former president of the association, who is the leading Shriner in the country, and with dignity and a smiling face bears the title of Imperial Pate-late of North America, A. A. O. N. M. Shrine. Mr. Stevens was accompanied by his wife, who the first time for two years is again able to enjoy an outing. They left Portland Thursday morning at 7 o'clock in their touring car with Mr. and Mrs. G. M. Barney and found the roads with few exceptions of one or two places very good. After stopping three hours they motor-direct to Mt. View and reached here at 5.30 o'clock p. m.

Friday afternoon and evening the Ladies' Aid, who are doing great work to help in the building of the handsome log church at Oquossoc through the courtesy of Mrs. L. E. Bowley who has done much to forward the good work, had a sale in the ladies' parlor beyond the music room. They had nearly 100 aprons of all kinds that they had made and pounds of homemade candy, also punch and lemonade that found a ready sale between the dances. \$10 was cleared by raffling a very handsome embroidered apron, a gift of Mrs. Bowley and the tickets were quickly sold and Mr. Bowley was the fortunate one to draw the prize. The room and tables were prettily decorated with ferns and flowers and Mrs. Harley Curtis, Mrs. E. Patten, Mrs. Taylor Judkins and Mrs. Rolfe Parker made good saleswomen and over \$50 was added to the fund of the Oquossoc Ladies' Aid, who plan for another sale in August.

Among those in attendance were Hon. and Mrs. Roscoe Reynolds, Mr. and Mrs. Homer N. Chase, R. J. Whitehouse, Miss Ada M. Wentworth, Dr. R. N. Randall, Miss Olive M. McGilvery, Dr. and Mrs. D. E. White, Mr. and Mrs. Geo. E. Pearce, Miss Alice Savage, Mr. and Mrs. W. A. Knight, H. A. Goss, R. H. Chapman, Hon. and Mrs. T. F. Callahan, Miss T. M. Callahan, Miss Beatrice F. Callahan, Edw. J. Callahan, Mr. and Mrs. E. M. Lowell, Dr. and Mrs. I. E. Pendleton, Lewiston; Mr. and Mrs. N. S. Weston, B. E. Smith, Mr. and Mrs. R. C. Whitehouse, Mr. and Mrs. J. R. True, Mr. and Mrs. A. H. Cooper, Mr. and Mrs. Frank L. Gardiner, H. B. Estes, Arthur G. Staples, Auburn; Scott Brackett, Hon. and Mrs. Harry B. Austin, Miss Ruth Austin, Miss Cornelia T. Crosby, Phillips; L. L. ## GERMAN BOAR COST SOMETHING

## Friends Think They Have Good Story on Mayor Viles.

A good story about a German wild boar and Mayo Blaine S. Viles of Augusta is told by the Kennebec Journal. The mayor recently added to his livestock as fine a specimen of German wild boar as could well be found. The boar, who seemed a perfect gentleman, was kept for a fortnight in the barn at the mayor's farm, "Ledge House," and won the reputation of being a tranquil creature who would live in peace with the plain old State of Maine hogs of the mayor's pasture land. So he was moved into his private car and transferred to his future abode. Once let loose, the boar began to cut up in lively style. Rushing full force against the further fence, he failed to make a dent in it. After looking around to pick out the weakest spot in the yarded enclosure he charged again and this time went sailing through the fence into the brush and woods beyond, thus adding a new species to the wild animals of Maine. To his friends who were doubled up with laughter over the performance, Mayor Viles suggested that "It wasn't a joke. That German boar cost over \$35."

## FLY FISHING O. K. IN THIS REGION

## Dull Season Is Over and Guests Beginning to Arrive.

Oxbow, Me., June 17, 1916.

To the Editor of Maine Woods:

Near the centre of far northern Maine lies an extensive stretch of country covered with mountains, ridges, lakes and streams and silent, primeval forests. The ridges, flats and valleys are beautiful under cultivation. "All places that the eye of Heaven visits" "Are to a wise man ports and happy havens." Oxbow, Masardis and Ashland, and Squa Pau and Portage as well, are places of that sort; and the hand of man has not marred their fair visage. Things at the Bow are fairly humming now. Parson Ackerman has lately run his ministerial-sub-soil-plow through the whole plantation by friendly calls and visiting the public schools.

Just as we had begun to think that our sporting friends had forgotten us and that our advertising had failed to hit the bull's-eye, and we were in for a slim season's work, the storm broke and a pair of distinguished guests flew into the home camp for a week's trip up river to Billy's new camps at Lake Millmagassett. They were Messrs. C. E. Osgood of Brookline, Mass., a widely advertised Boston household goods merchant, and L. N. Josselyn of Newton, Mass., president and treasurer, respectively, of the C. E. Osgood Co. (Inc.) of Boston. Close upon their heels came Charles Lord and Herbert Caldwell of Portland, both connected with the Maine Motor Car Co., R. E. Allwart of New York and Detroit, Fred Greenlaw of Masardis, Me., and F. S. Sumner of Waltham, Mass.

Following them the next day came Walter D. Hinds of Portland, with Messrs. C. C. Nobles and E. P. Angot of New York. Mr. Nobles has been a guest here several times heretofore. To make the circle complete and give grace to our festive board, Miss Amelia J. Walton, one of Masardis' popular and successful school teachers, paid us a visit by invitation of our hostess, Mrs. Billy.

Miss Delia R. Cushing of Houlton, who has been visiting her relatives in Ashland on the George and Peter Dunn farms for several weeks, paid us a flying visit of a few days last week escorted by her uncle, Mr. Richard Dunn of Ashland. Miss Cushing is an accomplished trained nurse and is widely known beyond her home village and native state. She makes her home with her sister, Mrs. P. P. Burleigh, No. 114 Main Street, Houlton, Me.

Messrs. Osgood and Josselyn, with Billy Soule and George Flemming guides, have just returned from the Lake Millmagassett Camps. They reported fine weather, few flies, but plenty of fish. Fly fishing is now O. K. in all this region, so the sports and guides all say. The scribe has 71 brook trout to his credit, all caught in sight of the home camp.

The Lord and the Hinds parties, both had first-class fly fishing last week up at the dead waters of Um-colous stream. They had Frank Currier, Ross Weaver, Stan. Chase, Arthur Smith and Will and Welman Fleming as guides. They saw plenty of deer and one moose on the trip of several days. Mr. Lord, with Billy Fleming guide, afterwards went up the Arcostock 10 or 12 miles, returning last night. They took plenty of trout and saw a large bear.

Of the twin girls born to Mr. and Mrs. Eph. Chase lately, one gave up the chase after a few hours. The other survived her debut to the world and is doing nicely, as per last reports. Mother and daughter are doing as well as can be expected. The Bow is not only beautiful for situation but is a remarkably healthful place, no other deaths having occurred for a long time. Marriages are infrequent and such a thing as divorce is unthinkable. If your scribe only was about 50 years younger quite likely he might be induced to settle on one of the many splendid farms for which this region is celebrated. He's a great-grandfather now and proud of the fact. Arcostock county is famous for mountains and hills, lakes and streams, fish and game, potatoes and children.

Wednesday evening, the 14th inst., the new Grange hall at the Bow

was dedicated with suitable ceremonies. The occasion called out a large and interested audience of Um-colous Lodge members, and many from lodges in other neighboring towns within a radius of 40 miles. A large number of non-members also were present. Their ages varied from 0 to 75 years. Mrs. Fred Fleming led the devotional service as chaplain of the lodge. Brother Thompson, master of the state lodges, was present and in a very admirable presentation of the benefits accruing to the public where lodges are instituted predicted for Umcolous Lodge a very prosperous career. Mrs. Thompson spoke briefly but to the point and was generously applauded. Rev. N. B. Ackerman of Masardis was the next speaker and was listened to with close attention. His topic was "The Value of an Ideal". Bro. MacLaughlin of Presque Isle spoke in a happy vein which concluded the regular program. At 10 o'clock a light repast of ice cream and cake was served to all of the 200 persons present; and of the fragments left over there must have been at least two baskets full. Umcolous Lodge does nothing by halves and the building it now occupies shows the fruit of willing and united effort in one and the same direction and is a credit to all concerned. On the following night a dance was held in the hall under the auspices of the Grange with music by Rafford's orchestra from Ashland. A large company, about 40 couples, enjoyed the festivities till an early hour of the next morning. There was a full moon and a full house.

Yours cordially,

J. C. Hartshorne.

## "THE ETIQUETTE OF THE WOODS."

Sportsmen everywhere will instantly recognize in this article the fulfillment of a long-felt need, an essential adjunct to the outfit of anyone not familiar with the Big Woods and which should never for a moment be left behind. Advice is cheap and easy to take, and right here we would emphasize our belief that anyone who doubts the following statement is no more of a gentleman than we would be to burst into loud, hoarse laughter at like statements of his. Going into the woods is serious business, either one should go prepared for anything (including the worst), or one should stay by his own fireside.

No gentleman should think of going into the wilds with less than four suitcases full of clothes for all occasions, neither should he demean himself by trying to put this raiment into a pack basket, for it will look as though you were trying to emulate a class of people below your own social level. Be sure and include a complete toilet outfit, cologne, talcum powder, rouge for fingernails, etc. Decency demands that you appear at your best always. A couple of hot water bottles are essential to the well-ordered camping kit, and a small soapstone is also handy to have along. If you have a mirror that will cover one end of your tent, take it by all means, you can then realize the picturesque effect of your hunting togs as never before.

For a cooking kit, a few simple things like a coffee percolator, a double boiler of size sufficient for cooking young pigs or turkeys, a chafing dish and 10 gallons of alcohol, a griddle cake or waffle iron, and a complete set of electrical cooking utensils, bread toaster, egg boiler, etc., will do for a small party. Supplies are optional, but a few essentials like Worcestershire sauce, pimentoes, a case of cream cheese, a keg of olives, and if possible a carton of caviar must not be left out of the list. If you premeditate slaying a few deer, by all means take a rifle originally intended for African big game, it will be so much more positive in its fatality. It should not weigh less than fifteen pounds, for the guide will carry it, and a guide, as a low-down, piratical sort of mucker, who should be taught his place and lowly station early in the game. If possible, get one of the late types of automatics, then you will assuredly kill something (or somebody) owing to the rapidity of discharge obtainable with it, which is only equalled by the speed with which your guide will disappear when you commence shooting. If you should knock down a small, fragile-appearing doe deer with this weapon, take a dead rest and empty the magazine into her before trying to approach more closely. Deer have

been known to escape after having been killed deadier than a smoked herring. If going by canoe, one can add a few hundred pounds to the outfit without inconvenience to himself (the guide does the work), and a number of home conveniences, such as the family plate, full-length portraits of ancestors, a hat-rack and your clothes-press can be handled easily. If you should be so unfortunate as to find yourself surrounded by a forest conflagration, climb the tallest tree you can find you will be as safe there as anywhere, and may be smothered before the flames reach you, unless the tree burns at the base and breaks your neck, spine, and earthly connections in falling. Carry a variety of revolvers and pistols, there is a man in Omaha, Nebraska, who can hit a church quite often at ten yards, and some day, with plenty of practice, you may be able to do this also, provided you have never used tobacco, coffee or plain booze all of which spoil a man's nerves (not nerve).—Old Hunter in Kennebec Journal.

## A LUMBERMAN'S BEAR STORY

At the session of the Tall Stove Club, Wednesday evening, relates the Bath Times, a lumberman from South Brook near Patten, Maine, said that while lumbering there last winter William Allan of Patten, who by the way has captured the past year 22 bears, ran across a mother bruin and two young cubs in the woods and all hands were greatly surprised, as the meeting was accidental and sudden. Mother Bruin at once told her children to climb a tree which they did. Allan shot the old bear with a pistol and then climbed the tree and captured the cubs, taking them under his arm back to camp. One of the little fellows was later sold for \$50. That night a big bear, probably the father Bruin, came to camp in search of the cubs and tore down a pen before he was driven to the woods. One night another big bear came to make a friendly visit to the lumbermen who were sleeping in a tent. He was driven away, but at midnight he returned and walked in, awakening the men who jumped out of their beds in a hurry and the bear was so alarmed that he left by the side instead of the door of the tent, taking the entire canvas outfit with him part of the way. Then the men built a hut, as the bears were too plenty, and too neighborly in South Brook for them. The little cubs first mentioned above were brought up on condensed milk, and when one of them had finished sucking the milk through a hole bored in the can and the can was empty, the bear pup would use it as a baseball and mischievously throw it at the nearest man.

## THE FOURTH QUIET IN RANGELEY

### Serious Illness of Minnie Grant Cushman Causes Much Sadness

(Special Correspondence.)

Rangeley, July 5.—Mr. and Mrs. Chas. Merrill and little daughter of Portland were week-end guests of Mr. and Mrs. Arthur Amburg. Mrs. Merrill and little daughter remained over the Fourth.

Miss Celia Kysala of Cleveland, Ohio, is spending the summer with her friend, Mrs. G. D. Vose.

C. B. Harris has purchased a Ford runabout of Dr. F. B. Colby. Dr. Colby is now driving a new Ford touring car and H. B. McCard is also driving a new Ford.

July Fourth passed rather quietly owing to the rain which descended all day with hardly any intermission. Many automobile trips were interrupted by the same cause.

Mrs. Hattie Richard has returned to her home in Richmond, her son, Leon Hoar being much improved.

Mrs. Anson Oakes was operated on at the Central Maine General hospital, Lewiston, the past week. Her husband, who accompanied her, returned home Tuesday night and reports her as very comfortable.

Mrs. Frank Dennison of Brewer arrived Friday night for a visit with her brothers, T. C. and L. D. Haley.

Mr. Pike, the new district superintendent for Rangeley, Rangeley Plantation, Dallas, Sandy River and Madrid arrived Tuesday night. He has leased the Mary Haines house on Lake Street.

Cards have been received announcing the marriage of William Kempton and Miss Daisy Mears at Pemaquid Beach, June 30, 1916. Mr. Kempton is one of our Rangeley boys, the son of Mr. and Mrs. Geo. Kempton. Miss Mears was employed at the Rangeley Lake House last season, so has made many friends in Rangeley. Congratulations are extended.

Mr. and Mrs. Arthur Caswell arrived for a two weeks' visit with relatives in town. At present they are stopping with Mrs. Caswell's brother, Ira D. Hoar.

Albert Carlton was called to Phillips Monday by the illness of his father, Joel Carlton.

Mr. and Mrs. H. A. Furbish left Saturday afternoon by auto for Lewiston.

Mr. and Mrs. Harry W. Hinkley and two friends of Rennerdale, Pa., arrived Sunday for a short visit. Mrs. Hinkley will visit at Mrs. Hannah Hinkley's while the men will enjoy a five days' fishing trip at Kennebago.

Ed Grant is in town, called by the serious illness of his daughter, Mrs. C. M. Cushman.

We note that Sid Smith of Montclair, N. J., has shaved off his mustache.

S. B. McCard was out from Kennebago the first of the week.

L. D. Nile shipped a large lot of wool the past week.

Geo. E. Pickel of Lowell is the guest of his brother, G. W. Pickel for a week.

Mr. and Mrs. Maurice Toothaker, Mr. and Mrs. Percy Hanson and Harry Orbeton came in from Phillips by auto Tuesday and visited Charles Toothaker.

The many friends of Miss Clair Pearce will be interested to learn of her marriage which took place July 1, at her home, Houlton, to Mr. Arthur Putnam.

Mr. and Mrs. George Nash and friend of Jackman visited relatives over the Fourth.

Harwood Childs is employed as bell boy at the Lake House.

Mrs. Guy W. Brooks spent the week-end with Mrs. A. D. Graffam.

Mr. and Mrs. Dolbier of Kingfield have taken the lower rent in the H. O. Hutton house.

(Continued from page one.)

have been getting cards with addresses and petitions for cards in return when we reach Texas.

The cars in which we ride are all decorated with pictures of Villa, Carranza and other noted Mexican leaders and such slogans as "Maine to Mexico or Bust" "We Want Villa's Scalp" decorate the cars.

Lieut. Arthur F. Hinds of Livermore Falls, who is with the first division, has a birthday today and his brother officers presented him with a wrist watch. Probably this will be one of the most memorable birthdays of his life.

No accidents or sickness mar our progress and the trip is to be remembered with pleasure. After we leave Buffalo our route is to be a long Lake Erie and the boys are looking forward to it with pleasure.

Music,	Violin
Dialogue,	Ivory Heath, Evelyn Whitfield

Recitation,	Florence Heath
Tableau,	Three Girls
Recitation,	Ivory Heath
Recitation,	Mabel Wood
Reading,	Mrs. Weston Parker
Music,	Violin

After the program the boxes were sold, Maurice Toothaker being the auctioneer. A little over \$7 was realized and Miss Kempton will buy a globe and a Century Book of Facts for the school. The remainder of the money will be placed toward an organ fund and it is hoped that the school will be able to buy an organ in a year or two, as one is needed very much. Games and dancing were enjoyed until a late hour. Mrs. Masterman of Weld furnished excellent music on the violin.

School in this district closed Friday, after a most successful term. Miss Kempton was much liked by all and it is hoped she will return, but she does not expect to as she plans to enter the Normal school this fall. The scholars not absent for the 10 weeks were Florence and Ivory Heath, Lucille Noyes, Lawrence Perry, Evelyn Parker and Everett Hamden. Linwood Heath was absent only one day.

Mrs. Jerry Wilbur, son Dan and daughter, Clara were guests of her sister, Mrs. Alphonso Manson Sunday.

Mr. and Mrs. Weston Parker and Mr. and Mrs. Fred Fairbanks attended the entertainment at the Reed schoolhouse Friday night.

John L. Matthews, who cut his leg quite badly with an ax, is still confined to the house.

Mr. and Mrs. M. T. Toothaker and daughter of Avon, Mr. and Mrs. Chas. Berry and Charles Pinkham, Mr. and Mrs. Clarence Fairbanks and little son, Mrs. Charles Fairbanks, Mr. and Mrs. A. B. Toothaker, Miss Hazel Sargent, Mr. and Mrs. Cliff Hunter and daughter and Charles Hewer attended the box supper in this district last Thursday night.

## Hippocrates, Father of Medicine.

Greek medicine in its primitive period is mostly mythical, beginning with Melampus, in about 1400 B. C. and ending with Hippocrates, 460 B. C. The most prominent character was Aesculapius, reputed son of Apollo and Coronis, and worshiped as the god of medicine by both Greeks and Romans. The philosophic period began with the doctrines of Hippocrates, believed to be the seventeenth in descent from Aesculapius, and known as the father of medicine. He separated medicine from priestcraft, abolished charms, incantations and all forms of mysticism and pretense, teaching that disease was a process governed by natural laws and yielding to treatments found by studying the symptoms. A copy of the Hippocratic oath sworn to by all the pupils of Hippocrates in about 410 B. C., is exhibited.

# GOOD SERMON ON PATRIOTISM

Many Regret the Departure of  
the Rounds Family

(Special Correspondence).  
Strong, July 4.—Mrs. George Porter and little son, Richard of Johnstown, New York, arrived in town last week to spend the summer with her parents, Mr. and Mrs. James Presson.

Miss Olive Hellier of Rumford is in town the guest of her brother, Merton Hellier and family.

Alice, little daughter of Mr. and Mrs. Dana I. Stevens of Farmington spent the week-end with Mrs. Ellen Kikenny.

A large crowd attended the auction sale of John Rounds' household goods last Saturday. A large circle of friends regret to have Mr. Rounds and family leave town for their future home in Ohio. The best wishes of all go with them.

Mr. and Mrs. Harry Hawthurst and daughter, May and friends of Rangeley were in town Sunday calling on friends.

Mrs. Myron Mitchell and Miss Vinie Lawton, who are working in Farmington, spent Sunday at their home in town.

Hollis M. Shaw was in town last week and was accompanied to North Anson by Mr. and Mrs. Fred Daggett, son Holman and Mr. and Mrs. Menzor A. Will.

Miss Marion Presson called on friends in town the first of the week.

Walter Bradford was in Livermore Falls one day last week with an automobile party.

Mrs. Percy Gould of Farmington was the guest of her brother, Bradford Beal and family a few days last week.

Several from town were in Farmington Saturday evening and attended the Trumbull players.

Dr. and Mrs. C. W. Bell, son, Richard and daughter, Sara were in Lewiston the first of the week. They made the trip in their new Buick automobile.

Miss Harriett Titcomb of Farmington spent several days recently in town the guest of friends.

The many friends of Mrs. C. B. Richardson are sorry to know she is quite ill. She is cared for by a trained nurse.

The rain Tuesday prevented many from automobile rides and fishing trips, and altogether it was a quiet July 4th.

John Rounds and family started for Wadsworth, Ohio, Tuesday noon, where they plan to make their future home. A host of friends regret their departure. The son, Carroll will remain in Maine during the summer.

Mr. and Mrs. Earle Kingsley, Verne Richardson and friend, Miss Libby of Farmington spent a few days recently at Dickey's cottage, Porter's Pond.

Ralph Starbird, Allie Richards, Chas Richards and Harry Allen went above Kingfield on a fishing trip.

**TELLS WHAT SHE THINKS**  
Anna Hawn, Cedar Grove, Mo., writes: "We think Foley Cathartic Tablets are the best liver pill we ever got hold of, as they do not nauseate or grip, but act freely on the liver." Recommended for constipation, bloating, sour stomach, gas on stomach, bad breath, clogged or irregular bowel action. Floyd E. Parker.

Mr. and Mrs. Harry Chandler were in Phillips Tuesday the guests of relatives.

Rev. John Dunstan preached an excellent sermon last Sunday morning on "Patriotism."

## WEST NEW VINEYARD

July 3.  
Gerrie Grover had the misfortune to lose a valuable cow during a thunder shower one day last week.

John Allen has been doing work on Mr. Lincoln's farm.

Mr. and Mrs. John Stevens spent Sunday with Mrs. Stevens' mother, Mrs. Esther Pratt.

Mrs. John Savage, accompanied by her daughter, Myra Savage left Saturday to spend a few days with her son in Lowell, Mass.

Mr. and Mrs. B. H. Ramsdell spent Sunday with their son, Shirley Ramsdell.

E. H. Hackett has been unable to carry mail for some days past. Elma Barker is taking his place.

Miss Mary Record is assisting Mrs. Shirley Ramsdell with the housework.

## FREEMAN VALLEY

July 3.  
Mr. and Mrs. Roscoe Paterson, two sons and Parker Williams and son from Lexington were Sunday guests at H. E. Mayo's.

Mr. and Mrs. George Fountain have moved from Ed Smith's house into Ira Russell's house.

Dyke Curtis was a caller in Salem Sunday.

Mr. and Mrs. H. G. Voter and daughter from Farmington and two nieces from Lewiston were callers in Freeman, Salem and Kingfield Sunday. Mrs. Fred Collins accompanied them as far as Salem. They made the trip by auto.

Mrs. Ira Russell and son, Charlie spent the week-end in Phillips.

## WELD

July 3.  
Mrs. Lubert Buker returned to Somerville, Mass., Saturday.

Mr. and Mrs. Milford Buker of New Bedford, Mass., and Wallace Conant of Boston arrived in Weld Sunday, where they will spend their summer vacation. They came in Mr. Buker's auto.

I. H. Buker and his daughter, Mrs. C. A. Kehew called on Mr. and Mrs. Joseph Trethewey at Weld Corner Sunday.

Mrs. Lena Pettengill, who has been teaching in the Woods district, finished her term of school Friday and with her little son, Raymond, who has attended the school, returned to her home in Chesterville Saturday.

Earl Sawyer of Wilton was in town Sunday.

The moving picture show and dance afterward at the pavilion Saturday night were well attended.

## A HACKING COUGH WEAKENS THE SYSTEM.

Don't suffer with a hacking cough that has weakened your system—get a bottle of Dr. King's New Discovery, in use over 40 years, and benefiting all who use it, the soothing pine balsam with tar heal the irritated air passages—soothes the raw spots, loosens the mucous and prevents racking the body with coughing. Dr. King's New Discovery induces natural sleep and aids nature to cure you.

## PROPER PLANTING OF TREES

Object Should Be to Place Roots in Soil as They Were Before Removal From Nursery.

The perfection of planting consists in placing the tree roots in connection with the soil as nearly as possible in the same direction as that in which they were before removal, and but slightly—one or two inches—deeper than the tree stood in the nursery. If the season is very dry it will be a good plan to give each tree a bucketful or two of water when nearly done planting.

Planting should not be done too early—not before the leaves will come off easily. They must in no case be left on the trees, even for an hour or two after digging, as they carry off moisture rapidly, and the trees would soon be wilted to a certain extent; and to strip off the leaves by hand before their office is completed is not a good plan. The planting may continue as long as the soil works well (is not wet and sticky) and the ground not too hard.

## Diners Given Free Ride.

The patrons of a certain New York cafe are treated to a free ride while they take their meals. The tables are arranged in a large circle which revolves slowly about some musical or dancing "act" in the center. Those who begin their dinner at the entrance of the cafe may find themselves eating their salad course in the rear. The circle is 32 feet in diameter and is moved by a one-fourth horsepower motor at the rate of one revolution per hour. The motion is too slow to be objectionably noticeable to anyone, but considerable amusement is afforded by the gradual change of location.

## SHOULD SLOAN'S LINIMENT GO ALONG?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment," writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.

## EUSTIS

July 3.  
Mr. and Mrs. Percy Day have gone to New Vineyard to visit the former's sister, Mrs. Will Rice.

Miss Bernice Stevens has come from King & Bartlett camps where she has been working and is going to Phillips to stay with relatives.

Mrs. E. A. Gordon has returned home. She visited relatives in Skowhegan, Portland and Boston while she was away.

Miss Pearl McLaurin is working for Mrs. Harry Sylvester.

Mrs. George Bryant and children have gone to Coplin to live where Mr. Bryant has taken a poplar job.

Alfred Ramsay and family have also moved to Coplin, where Mr. Ramsay is working peeling poplar.

Alton Corcorin is out from Big Island for a few days. He is visiting his aunt, Mrs. Clinton Meader.

W. H. Sylvester has bought a new Ford five passenger car.

Hugh Sylvester fired a B. B. shot through his thumb one day the past week. He was fooling with a gun and didn't know there was any shot in it. Dr. Brown was called, but he couldn't find the shot. A few moments after that accident Willis Sylvester was playing with a hay chopper and cut one of his fingers and broke another. Dr. Brown was called to attend him.

## Heat Drawn From the Sun.

The great German physicist Helmholtz was the first to explain satisfactorily what keeps the sun hot. The sun is not burning; it is heated to the glowing point, like a piece of white hot iron. Helmholtz found that if we suppose the sun to be contracting by only 250 feet a year we would receive our present amount of heat. In other words, says the Popular Science Monthly, heat is being literally squeezed out of the sun. Professor Newcomb estimated that when the squeezing process has continued for about 7,000,000 years the sun will be one-half its present size.

## GROCER JOHNSON'S NEW SIGN

What does it mean?

It means that Mr. Johnson carries Socony Kerosene Oil and he wants everybody to know it.

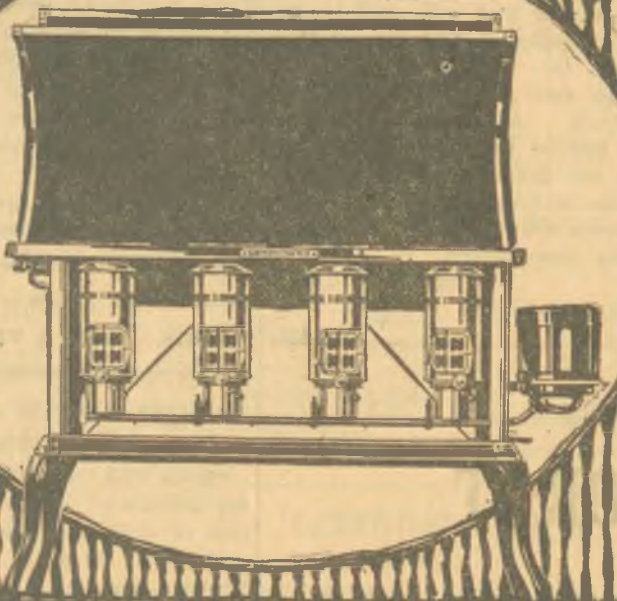

Why?

Because Socony Kerosene is the safest and best kerosene on the market. Inexpensive, too, compared to the present price of coal. The New Perfection Oil Cook Stove cooks three meals a day for a family of six at an average fuel cost of six cents.

The New Perfection is economical and efficient, because the long blue chimney burner converts every drop of oil into clear, intense heat. The 1916 models have the new patented reversible glass reservoir and many other improvements. Sold in 1, 2, 3, and 4-burner sizes (by hardware, furniture and general stores) everywhere.

**Worms Sap Children's Health**  
Mothers often wonder why their children are not rugged and hardy. In a vast number of cases the trouble is—Worms.

Signs of worms are: Indigestion, variable appetite, craving for sweets, nausea, vomiting, swollen upper lip, sour stomach, offensive breath, hard and full belly, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on tongue, starting during sleep, slow fever.

Dr. True's Elixir, the 60 years time-tried Family Laxative and Worm Expeller, will expel the worms and restore the vim and vigor to your child. Good for adults also. ### HAS A GOOD REPUTATION

The original and genuine Honey and Tar cough syrup is Foley's Honey and Tar Compound and because this has given such universal satisfaction and cured so many cases of coughs, colds, croup and whooping cough there are imitations and substitutes offered to the public. Insist upon Foley's. Floyd E. Parker.

### PRUNING THE TOMATO VINES

More Fruit Produced Than on Plants Allowed to Develop With No Attention to Shape.

Pruned tomato vines will produce more fruit and a superior quality to that grown on vines that are allowed to develop with no attention as to shape and density of the foliage. The plant that must supply sustenance to more branches than are necessary for supporting the crop, will have its vitality so uselessly sapped by them that the fruit will be small in size and of an inferior quality.

No set rule can be given for pruning tomatoes, which should be done according to their size, shape and vigor. However, tall, top-heavy vines are to be guarded against by cutting out the tops, thus encouraging lower growth and heavier branches for supporting the fruit. Long, slender branches are to be trimmed back well, else the fruit will be undersized, while the limber branches often will bend down till the tomatoes come in contact with the damp earth, causing premature ripening and rot.

Those who have had little or no experience in pruning tomatoes might do well to wait till the vines begin to blossom, before trimming out any of the branches, when it can be seen where the crop will be too thick—these spots being thinned out by clipping off the smaller and weaker branches, leaving the healthy, vigorous ones for developing and supporting the fruit.

### KEEPING PLANT LICE AWAY

Tobacco Dusted Around Cucumber Vines Will Prove Efficacious If Strictly Adhered To.

Buy a sack of tobacco dust, just the ordinary cheap kind, and dust it plentifully all around the cucumber vines as soon as they come through the ground, and keep dusting it around them once a week all summer. Give the melons the same treatment.

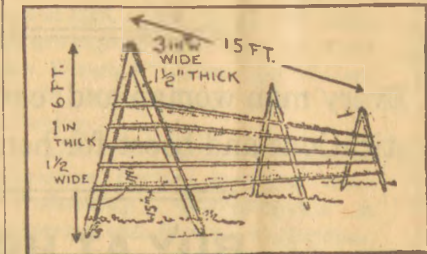

Plant lice do not like tobacco, and generally this will keep them off. It is almost impossible to fight plant lice on vines when they are once established, but if they are kept away right from the start we can often succeed in keeping the vines free from them.

Stir a little of the dust into the soil close to the roots and it will help to rid the soil of the root aphids also if they are prevalent.

### HANDY TRELLIS FOR GARDEN

Has Many Advantages in Growing Cucumbers, Tomatoes, and Tall Varieties of Peas.

For growing cucumbers, tomatoes, pole beans or the taller varieties of peas a trellis has many advantages over poles or brush. Fewer cucumbers remain hidden under the leaves and go to seed, and it is easier to spray them on both sides of the leaves to prevent rust when they are growing on a trellis. A trellis such as illustrated is easily made, and if put under cover as soon as the growing season is over it will last for many years.

Handy Garden Trellis.

If the two uprights are fastened together with a bolt and the end strips left off the trellis will fold up, which makes it much easier to handle.—Farm and Home.

### SHE TOLD HER NEIGHBOR

"I told a neighbor whose child had croup about Foley's Honey and Tar," writes Mrs. Rehkamp, 2404 Herman St., Covington, Ky. "When she gave it a couple doses she was so pleased with the change she didn't know what to say." This reliable remedy helps coughs, colds, croup and whooping cough. Floyd E. Parker.

### PRUNE THE RASPBERRY

More Profitable If Farmer Understands Growth.

First Object Should Be to Give New Wood Room in Which to Grow—Summer Pruning Is Done During June or July.

The pruning of the red raspberry will be better understood if the pruner knows the habit of growth of the plant. A new cane springs up and develops during the summer; the next spring this cane throws out fruit clusters, bears fruit, and dies that year. The root is perennial and the cane is biennial. The object of the pruner then, should be: first, to remove the old wood as soon as it dies in order to give the new wood room in which to grow; second, to secure, both by thinning and by heading-in, canes to sufficient vigor and development to produce the most and the largest fruit.

There is a slight difference between the methods of pruning the red and the black raspberry, a variation due to different habits of growth. The canes of the blackberry grow long and droop to the ground, whereas the canes of the red raspberry are shorter and upright. Because of this long-growing and drooping habit of growth of the canes, growers pinch off the tips of the black raspberry in order to make the canes branch. A branched cane is desired because it contains more fruit buds than does a straight cane.

This work is done when the canes

Properly Pruned Red Raspberry Bush.

are 24 to 30 inches high. If it is done in time the tender tips may be pinched off with the fingers and the use of shears is not necessary. The patch must be gone over more than once, since the canes will not all reach the desired height at the same time.

Briefly summarized, the pruning of the black raspberry is as follows: The old canes should be cut out and burned soon after fruiting. The new canes should be pinched back when 24 to 30 inches high, and thinned to not more than five or six canes to each crown. This pruning is called summer pruning, and is done in June or July. In the spring the lateral branches are cut back so that the remaining buds will develop into strong fruit clusters.

### NOT WELL ENOUGH KNOWN

We cannot accomplish much in the treatment of dyspepsia, however much we may temporarily relieve its symptoms, so long as the blood remains impure. It is a fact not well enough known by people generally that when the stomach, liver and other digestive organs are supplied with impure blood, the digestive process is impaired, so as to cause faintness and loss of appetite and in general all the symptoms of dyspepsia.

Hood's Sarsaparilla is of great service in dyspepsia, because it purifies the blood, making it the healthy stimulus the digestive organs must have for the proper performance of their duties. Hood's Sarsaparilla, especially if taken in a little hot water, has "a magic touch" in dyspepsia. Get it today.

# RESOLUTIONS OF RESPECT.

Whereas, it has pleased the Great Master of the Universe to call from labor to reward, our honored Past Master, brother E. A. Peary, we, the members of Aurora Grange, do hereby resolve:

That, in the passing of brother Peary, we have lost a member, who, by his generous devotion to the order, by his unselfish zeal for the advancement of the Grange, and by his exemplary life, both public and

private, set an example worthy of our imitation, and left a memory to be cherished with love and esteem.

Resolved: That we extend to his bereaved family our heartfelt sympathy. May their bruised spirits find balm and healing at the hands of Him, who is the source of all consolation and of all comfort.

Resolved: That our charter be draped thirty days in token of our sorrow; that these resolutions be spread upon our records; that they be published in the Maine Woods,

and that a copy be forwarded to the family of our deceased brother.

## NORTH CHESTERTVILLE

July 3.

A birthday tea party was given last Monday evening, June 26th in honor of the following birthdays at

the pleasant home of Mr. and Mrs. F. H. Thorpe: Mr. and Mrs. Albert Knowles, Mrs. Charlie Pinkham, Mrs. Ellen Lovejoy and F. H. Thorpe. Later it was found to be the wedding anniversary of Mr. and Mrs. Elmer Wright. The evening proved to be very enjoyable and it was agreed upon to meet again one year from date.

Mrs. Ralph McLaughlin and Miss Amber of East Madrid were guests last week of Mrs. G. L. Savage. Miss Esther Bailey of Brockton is

spending her vacation with her mother, Mrs. Leonard Keith.

We are glad to report Mrs. Robert Pinkham as slowly gaining in health.

On July 12th the Ladies' Union Sewing Circle will meet with Mrs. Abbie Morrison.

## NORTH PHILLIPS

July 3.

The box supper and sale at the Blethen schoolhouse Thursday evening, June 29th, was a success in every way. There were nearly 100 present. The sum of \$55.35 was realized from the sale. The ladies all brought boxes well filled with good things and the gentlemen certainly brought well filled pocket books. Morrill Wing acted as auctioneer and a better one would be hard to find. Much praise is due the teacher, Miss Patia Moores and scholars for the beautiful decorations and the pleasing program carried out during the evening. The Willing Workers extend thanks to all who so generously helped in the good cause.

Mr. and Mrs. E. E. Crockett and children of Wilton were guests a few days last week of Mr. and Mrs. C. W. Hamden.

Mr. and Mrs. Percy Voter and little son visited relatives in Strong last Sunday.

Mr. and Mrs. C. W. Hamden spent Sunday in Avon, guests of Mr. and Mrs. Arthur Storer.

Raymond McGray of Lynn, Mass., is visiting at Eugene Hinkley's for a few weeks.

Mrs. Percy Seavy and Mrs. Mina Rowe of Salem were Sunday guests of Mrs. Gary Nickerson.

Harry Dunham of Madrid was a caller at Gary Nickerson's last Thursday.

A little girl arrived at the home of Mr. and Mrs. Ward Keef June 25th. They have decided to keep her and will call her Bedella Lillian.

Josiah Lake of Avon called on relatives on Bray Hill one day last week.

## DISTRICT NO. 2

June 27.

Let everybody remember there will be services at the West Phillips chapel next Sunday afternoon at 3 o'clock.

Miss Edith Sargent is working for Mrs. Carl Haggan.

Mrs. H. E. Walker is the guest of her daughter, Mrs. L. B. Field a few days this week.

Carroll Plummer, who has been off duty a few weeks owing to illness, has resumed his work on the section again.

Mr. and Mrs. E. H. Libby and Mrs. J. O. Page of Gardiner were recent guests of Mr. and Mrs. Linwood Haley.

Mrs. Charles Heath was the guest of her daughter, Mrs. C. L. Prescott Tuesday.

Miss Irene Wing of Avon is visiting her grandparents, Mr. and Mrs. Morrill Wing this week.

Mrs. F. H. Cadden and little daughter, Mary are visiting relatives in Rangeley this week.

Mrs. Mary Plummer has returned from Auburn and is occupying her new bungalow, which her son, H. B. Plummer has just completed.

Mrs. C. H. McKenney and son, Arlon were at Long Pond a few days last week enjoying the fishing. Miss Myrtice did the housework during her mother's absence.

\$595

Maxwell

THE SAME CAR FOR LESS MONEY

**B**EAR in mind that the Maxwell car has not been changed.

It is standardized. It will not be changed except in minor respects—where we see opportunities from time to time to make refinements and additional improvements.

The new price of \$595 is only made possible by our greatly increased production and the fact that we specialize in *only one automobile*.

Every Maxwell car is identically the same as every other Maxwell car.

Last year the Maxwell car represented a big value. Many thousands of satisfied Maxwell owners are the evidence of that.

But this year—at the reduced price of \$595—the Maxwell stands out as the one big automobile value of all time.

Nothing like it has ever been offered for the money.

Just consider, complete electrical equipment for starting and lighting; speedometer; demountable rims; one-man top; rain-vision windshield;—and every other device for the comfort and convenience of the owner.

Every thing that the expensive cars have. And good looks, comfort and economy of operation—that some of the others haven't.

There has been a nation-wide demand for Maxwell cars at the former price; there will be an overwhelming demand for these cars at the new price of \$595.

And this proves that the American public has admitted and verified our unqualified claim that the

*Maxwell Motor Car is the Big, Outstanding Motor Car Value in the Country Today.*

### WHAT THE MAXWELL PRICE INCLUDES

Long-stroke, high speed, four-cylinder motor; 8 to 50 m.p.h. on high gear; 20 to 25 miles to the gallon of gasoline (average).

Irreversible steering gear; automatic motor lubrication by splash and pump; 500 to 1,000 miles per gallon of oil.

Thermo-siphon cooling.

A running-in-oil clutch, so smooth as to make the driving of a novice as free from gear-clashing and from sudden jerks as that of a seasoned driver.

Tall, narrow, racing type Maxwell-made radiator. Maxwell-made axles—1-beam front and semi-floating rear; highest quality heat-treated alloyed steel.

Gasoline tank in cowl; short, accessible gas line to carburetor.

Maxwell-made stream-line body, well finished in every detail. Deep, comfortable upholstery. 30 x 3 1/2 tires all around, non-skid on rear; average life 8,000 to 10,000 miles. Demountable rims.

Tire carrier at rear, with extra rim.

Substantial, Maxwell-made crowned fenders and fender-mounted running boards.

Electric starter, electric lights, electric horn.

High-Tension Magneto, an independent source of ignition.

#### WORK THAT TELLS

Plenty of It Has Been Done Right  
Here in Phillips.

To thoroughly know the virtues of a medicine you must investigate its work. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Phillips. People who testified years ago to relief from backache, kidney and urinary disorders, now give confirmed testimony—declare the results have lasted. How can any Phillips sufferer longer doubt the evidence?

H. H. Vining, farmer, Pleasant St., Phillips, says: "I got Doan's Kidney Pills at Preble's drug store, when suffering from kidney trouble and they cured me in a short time. I hope that my statement will lead other sufferers from kidney complaint to try Doan's Kidney Pills."

Over three years later Mr. Vining said: "I haven't had occasion to use Doan's Kidney Pills since giving my former endorsement, so I consider the cure permanent."

Price 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Vining. Foster-Milburn Co., Props., Buffalo, N. Y.

Whenever you write to one of our advertisers, don't forget to mention Maine Woods. It is important to you to do so; important to us and the advertiser naturally wants to know where you found his name.

Doan's Kidney Pills have my highest endorsement."

Price 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Kennedy had. Foster-Milburn Co., Props., Buffalo, N. Y.

**KEEPING UP TO THE MARK**  
"Spring fever" is not always a joke. If you feel dull and sluggish, tired and worn out, suffer from backache or weak back, rheumatism, sore muscles, stiff joints or other indication of kidney trouble, it will pay you to investigate Foley Kidney Pills. They are highly recommended as prompt and efficient aids to health. Floyd E. Parker.

#### What Not to Expect in Husband.

In the Woman's Home Companion a writer says: "Don't expect all the virtues in one man. If he is good-natured he may be lazy; if he is scholarly, he may be cold; if he is thrifty, he may be stingy; if he is generous, he may be wasteful; if he is smooth, he may be deceitful. The man who charms you with his immaculate appearance is likely to be something of an old maid; the man who is careful to pick threads off your skirt is prone to pick flaws in you; the man who takes an undue interest in the selection of your hats may take an undue interest in the bill which comes home; the man who, before marriage, jumps to open the door, lest your fingers be contaminated by the knob, may after marriage, allow those same fingers to be contaminated by the washboard."

CUT THIS OUT—IT IS WORTH MONEY.

DON'T MISS THIS. Cut out this slip, enclose with 5¢ to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for bronchial coughs, colds, and croup; Foley Kidney Pills, and Foley Cathartic Tablets. Floyd E. Parker.
